AWARDS BY TYPE OF CONTRACTOR

Military Procurement by Type of Contractor. Total military procurement of \$69,348 million during fiscal year 1979 was an increase of \$4,163 million (6.4%) from the \$65,185 million during fiscal year 1978. Contract awards to U.S. business firms increased by \$4,416 million, and awards to educational and nonprofit institutions increased by \$107 million, while awards to or through Other Government Agencies decreased by \$226 million and awards for work outside the U.S. decreased by \$134 million.

Trends in Military Procurement. Fiscal year 1967 procurement, which reached a total of \$44.6 billion, established a new high since the peak Korean War year of fiscal year 1952 when military procurement totaled \$43.6 billion. Following Korea, the post-war cutbacks and adjustments reduced net procurement to \$13.3 billion in fiscal year 1954, after which there was a steady increase in annual procurement to \$25.3 billion in fiscal year 1959. Declining to \$23.7 billion in fiscal year 1960, procurement again increased in each of the next three fiscal years reaching \$29.4 billion in fiscal year 1963. Following declines to \$28.8 billion in fiscal year 1964 and to \$28.0 billion in fiscal year 1965, the increase in military activity in Southeast Asia brought about a sharp increase in procurement which reached \$38.2 billion in fiscal year 1966 and a high of \$44.6 billion in fiscal year 1967. Following declines in the next four years to \$34.5 billion in fiscal year 1971, procurement increased in fiscal year 1972 to \$38.3 billion, declined to \$36.9 billion during fiscal year 1973, increased to \$40.1 billion during fiscal year 1974, to \$45.8 billion during fiscal year 1975, to \$46.9 billion during fiscal year 1976, to \$55.6 billion during fiscal year 1977, to \$65.2 billion during fiscal year 1978, and to \$69.3 billion during fiscal year 1979. The long-term trend in military procurement to business firms is shown in Table 3 and Chart II.

Small Business Performance. Small business firms received \$11,486 million during fiscal year 1979, an increase of \$1,385 million from the fiscal year 1978 total of \$10,101 million.

Small business firms received 20.1 percent of the value of military prime contracts awarded to all United States business firms during fiscal year 1979 compared with 19.2 percent in fiscal year 1978.

As shown in Chart I, 5,986,147 contract actions or 64.9 percent of the total 9,227,555 actions placed with business firms were awarded to small business firms.

Civil Functions Excluded. It should be noted that prime contracts for civil functions are not included in any of the tables in this pamphlet. If data for civil functions under the management of the Army Corps of Engineers (flood control, rivers, and harbors work) were included with those for military functions, the combined results for fiscal year 1979 would be as follows:

(Amounts in Millions)

	<u>All Business Concerns</u>	<u>Small Business Concerns</u>	<u>Amount</u>	<u>% of Total</u>
All Prime Contracts	\$58,544		\$12,171	20.8
Military Functions	57,031		11,487	20.1
Civil Functions	1,513		684	45.2

Foreign Military Sales Contracts. Intragovernmental orders for fiscal year 1979 include \$5,380 million in foreign military sales contracts (reimbursable sales to foreign governments) as follows: Army, \$2,302 million; Navy, \$887 million; Air Force, \$2,166 million; and Defense Logistics Agency, \$25 million.

AN INVALUABLE GUIDE TO THE MOST RECENT AND USEFUL WORKS ON COVERAGE.

AWARDS BY PROCUREMENT PROGRAM

Data on the net value of military prime contract awards to business firms in the United States by procurement program are shown in Table 5 and Chart III for fiscal years 1978 and 1979 and in Table 6 for fiscal years 1955 through 1979. Table 6A further subdivides awards by procurement program by purchasing department for fiscal years 1963 through 1979. The procurement program definitions are identical with those prescribed for use in the Defense Materials System.

Total military procurement from United States business firms for work performed in the United States during fiscal year 1979 totaled \$57,031 million, \$4,416 million (8.4%) higher than last year. A comparison of fiscal year 1978 and 1979 totals shows the principal change to be a \$3,131 million increase for major hard goods. The procurement programs with the largest increases were electronics and communications equipment, \$1,450 million; ships, \$570 million; construction, \$478 million; and all actions of \$10,000 and less, \$433 million. The procurement programs with the largest decreases were for services, \$159 million; and textiles, clothing, and equipage, \$132 million.

A/ FOR DEFINITIONS AND COVERAGE, SEE NOTES ON COVERAGE.

AWARDS PUBLICIZED TO SMALL BUSINESS

The extent to which the small business community was notified of pending procurement actions and its success in competing for the publicized procurement is shown in Table 4.

The following types of procurement are included in the category "Publicized to Small Business": (1) proposed procurements which are synopsized and listed in the Department of Commerce publication Commerce Business Daily; (2) modifications to contracts which were synopsized; (3) formally advertised procurements which were not published in the Commerce Business Daily; and (4) all other procurements on which small firms were specifically requested to submit proposals. For the most part, not-publicized procurements relate to classified work, goods, or services involving an unusual or compelling emergency, modifications of contracts which were not synopsized, and delivery orders under not-synopsized contracts.

During fiscal year 1979, 83.8 percent of the total awards to business firms were publicized to small business compared with 83.3 percent during fiscal year 1978. Small business did not submit bids on 68.9 percent of these publicized procurements compared with 69.0 percent in the preceding year. They were successful in bidding on 24.0 percent (23.1 percent last year) of the publicized total and were unsuccessful bidders on 7.0 percent (7.8 percent last year).

The portion of military procurement synopsized amounted to 75.8 percent compared to 75.4 percent for last year.

TABLE 1a (continued)
AWARENESS OF PHONATION PROGRAM, BY DEPARTMENT (BY CLINICAL YEAR) 4/

AWARDS FOR RESEARCH, DEVELOPMENT, TEST AND EVALUATION WORK

The net value of military prime contract awards for research, development, test, and evaluation work (RDT&E) for fiscal years 1959 through 1979 are shown in Table 7.

The total dollar value of RDT&E awards, excluding awards for work outside the United States and orders to other government agencies, amounted to \$8,480 million during fiscal year 1979 and accounted for 14.6 percent of all military procurement. During fiscal year 1978, the comparable dollar amount was \$8,612 million which was 16.0 percent of the total awards.

Between fiscal years 1959 and 1963 there was an annual increase in the dollar value of awards for RDT&E work. Following two years of decline, awards for RDT&E procurement increased to \$6,436 million in fiscal year 1968. After two years of decline to \$5,399 million in fiscal year 1970, awards for RDT&E increased in each subsequent year to \$6,266 million in fiscal year 1973, declined in fiscal year 1974 to \$5,775 million, again increased to \$6,257 million in fiscal year 1975, to \$6,726 million in fiscal year 1976, to \$7,826 million in fiscal year 1977, to \$8,612 million in fiscal year 1978, and declined to \$8,480 million in fiscal year 1979. Although there has been a general upward trend in both total and RDT&E awards since fiscal year 1975, the relative share of RDT&E procurement to total procurement has declined from 17.5 percent in FY 1976 to 14.6 percent in FY 1979.

Contract awards for RDT&E by procurement programs are shown for fiscal years 1959 through 1979 in Table 8. The percentages shown represent the proportions the RDT&E awards in each program are of the totals shown in Table 6.

The following table distributes the RDT&E dollars awarded to business firms and educational and nonprofit institutions for fiscal years 1978 and 1979 and shows that in fiscal year 1979 4.6 percent was awarded for

research, 82.4 percent for development, and 13.0 percent for management and support. Corresponding percentages for fiscal year 1978, respectively, were 3.9 percent, 88.5 percent, and 7.6 percent.

Small business firms in fiscal year 1979 acquired 6.7 percent of all prime contracts for RDT&E work receiving 48.8 percent of all research contracts, 6.0 percent of the development contracts, and 5.4 percent of the contracts for management and support.

CHART IV
COMPETITION IN MILITARY PROCUREMENT

FISCAL YEAR 1979

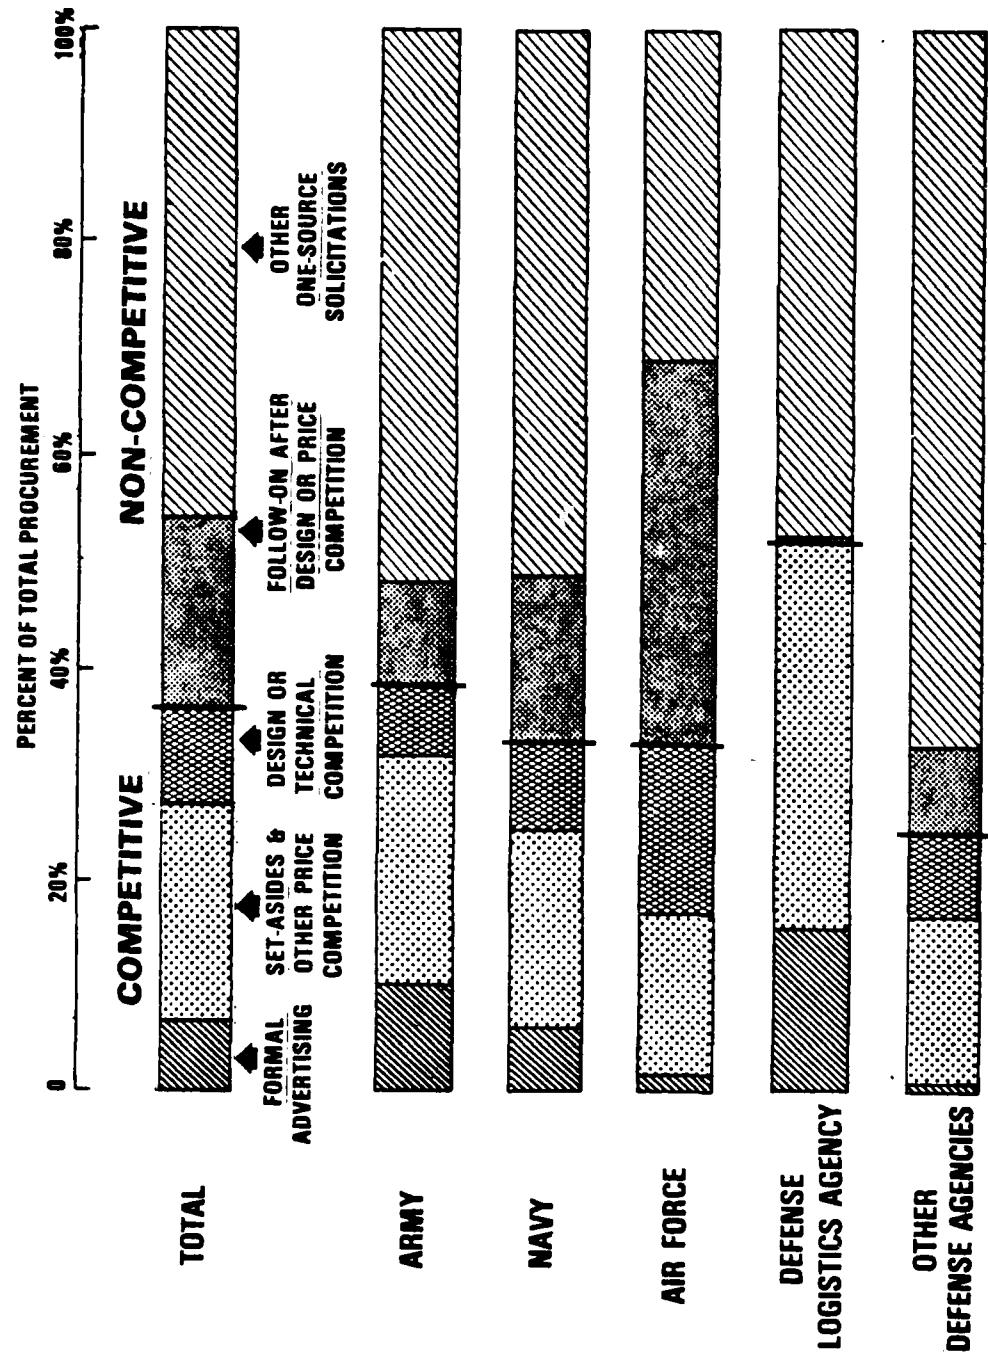

Table 14 shows a total of 10,885,169 procurement actions during fiscal year 1979, an increase of 384,364 in the total number from last year. Of this year's total, 97.3 percent or 10,591,486 were for \$10,000 or less. Last year, actions of \$10,000 or less numbered 10,231,607, accounting for 97.4 percent of all actions.

Of the 293,683 larger actions over \$10,000 in the current year, 34,171 were for intragovernmental awards. Of the remaining 259,512 actions, 46.4 percent were for new contracts or supplemental awards for additional supplies or services, while the remainder were delivery orders or modifications such as price redeterminations or incremental funding actions which were pursuant to the terms of existing contracts. Five negotiation clauses accounted for 72.6 percent of the total number of contracts of over \$10,000: (10) "Impractical to Secure Competition by Formal Advertising," 36.0 percent; (1) "National Emergency," 14.2 percent; (9) "Perishable or Non-Perishable Subsistence," 9.9 percent; (2) "Public Exigency," 6.5 percent; and (11) "Experimental, Developmental, Test, and Research," 6.4 percent.

one source was solicited, and further demonstrates that substantial use of competitive procedures is made even when sealed-bid (formally advertised) methods are not employed.

Formally Advertised and Other Awards. Table 11 shows the dollar volume of procurement placed with small business and other contractors through unrestricted formal advertising and other statutory authority during fiscal years 1978 and 1979, and Table 12 shows similar information for fiscal years 1951 through 1979. During 1979, 6.6 percent of total procurement was obtained by unrestricted formal advertising methods, compared to 6.8 percent in the preceding year.

If small business restricted advertising and balance of payments restricted advertising are included in the total of advertised awards, the comparable dollar values and percentages of fiscal years 1978 and 1979 are as follows:

(\$ Amounts in Millions)			
	FY 1978	FY 1979	%
	<u>Amount</u>	<u>Amount</u>	<u>%</u>
Total Procurement Except Intragovernmental	\$57,718	100.0	
All Advertising	6,233	10.8	
Unrestricted Formal Advertising	3,918	6.8	
Small Business Restricted Advertising	2,310	4.0	
Balance of Payments Restricted Advertising	5	*	
		\$62,107	100.0

Statutory Authority. Tables 13, 14, and 15 present data on the detailed types of procurement authority specified in Title 10, Section 2304(a) of the United States Code.

The five clauses used most extensively to negotiate contracts during fiscal year 1979 were (10) "Impractical to Secure Competition by Formal Advertising"; (14) "Technical or Specialized Supplies Requiring Substantial Initial Investment or Extended Period of Preparation for Manufacture"; (11) "Experimental, Developmental, Test, or Research"; (1) "National Emergency"; and (2) Public Emergency.

Small business and labor surplus set-asides totaled \$4,010 million during fiscal year 1979 and represents 6.5 percent of the total. This compares with \$3,350 million and 5.8 percent of total in the previous year.

AWARDS BY METHOD OF PROCUREMENT

In connection with the discussions relating to "Competition" and "Formally Advertised and Other Awards," it should be noted that sealed-bid procedures are used not only for unrestricted formal advertising but also for procurements made under balance of payments restricted advertising (restricted to U.S. end products and services) and small business restricted advertising (restricted to small business firms). These procurements are conducted in the same manner as prescribed for formal advertising; however, they are classified as negotiated procurements. The effect of including small business restricted advertising and balance of payments restricted advertising in the advertised total is shown under paragraph Formally Advertised and Other Awards.

Military prime contracts awarded after solicitation and receipt of two or more responsive offers for competitive price, design, or technical proposals totaled \$22,570 million and represented 36.3 percent of the net amount of procurement (excluding intragovernmental orders) during fiscal year 1979 compared to \$20,871 million and 36.2 percent for last year. Competitive methods accounted for 37.5 percent of the total number of procurement transactions during this period. In fiscal year 1978, competitive transactions accounted for 37.8 percent of the total.

Approximately 28 percent of the value of awards during fiscal year 1979 involving solicitation of one procurement source was for supplemental or follow-on contracts placed with companies which had previously competed successfully for the price, design, or technical phase of a project or weapon system. The remaining one-source solicitations included such types of goods and services as utilities, patented or other proprietary items, experimental, developmental, test or research work, and industrial mobilization in the interest of national defense. Table 10 provides a general indication of the type of items for which only

SUBCONTRACTS

Commitments for subcontract work by 832 reporting large military contractors totaled \$21,245 million in fiscal year 1979 which was a 21.5 percent increase from the \$17,482 million reported by 810 large contractors in fiscal year 1978.

Small business firms received 42.7 percent of the total committed for subcontract work during fiscal year 1979 compared with 40.7 percent for fiscal year 1978. Comparative data for fiscal years 1970 through 1979 are shown in Table 18.

AWARDS BY TYPE OF CONTRACT

PRICING PROVISION

Tables 16 and 17 show the types of contract pricing clauses used in military procurement actions over \$10,000. During fiscal year 1979, awards over \$10,000 (excluding intragovernmental) totaled \$56,664 million, of which \$41,733 million or 73.7 percent was awarded under fixed-price procedures, and \$14,434 million, or 25.5 percent, under cost reimbursement procedures. Other types, time and materials and labor hours, accounted for \$497 million and 0.9 percent of total.

Cost-plus-a-fixed fee (CPFF) contracts accounted for 11.8 percent of total contract awards of over \$10,000 in fiscal year 1979. Use of CPFF contracts since fiscal year 1964 have ranged from a low 9.4 percent in fiscal year 1965 to a high of 12.9 percent in fiscal year 1973. The use of incentive contracts (both fixed and cost types combined) decreased from 29.6 percent of total contract dollars in fiscal year 1978 to 26.2 percent in fiscal year 1979. The use of firm fixed-price contracts increased from 39.6 percent during fiscal year 1978 to 44.1 percent during fiscal year 1979.

The total of 259,512 actions over \$10,000 during this period shown in Table 16 is divided into 120,315 original contract actions and modifications calling for additional work, and 139,197 actions representing delivery orders and modifications made pursuant to the terms of existing contracts. The overall number of procurement actions over \$10,000 increased during the current period by 10.9 percent compared with the previous year. Actions for new work increased by 11.6 percent and actions representing delivery orders and modifications pursuant to the terms of the original contract by 10.2 percent.

NOTE: EFFECTIVE 1 JANUARY 1977, DEFENSE SUPPLY AGENCY CHANGED ITS NAME TO DEFENSE LOGISTICS AGENCY.
PRIOR TO FISCAL YEAR 1978 "OTHER DEFENSE AGENCY" AWARDS WERE INCLUDED IN THE ARMY TOTAL.

NOTES ON COVERAGE AND GLOSSARY OF TERMS

Business Firms - Companies, individuals, and partnerships organized for profit.

Civil Functions - Non-military activities such as those administered by the Army Corps of Engineers for rivers and harbors, and flood control work. Civil Functions are excluded from this report.

Coverage Compared with Fiscal Reports - Amounts in this contract report are shown for the Military Department or Defense Agency that awards the prime contracts and not the department or agency that budgets for the supplies or services. In addition, data for Army, Navy, and Air Force include prime contracts awarded on behalf of the National Aeronautics and Space Administration and other Federal agencies, as well as for foreign countries whose defense purchases are bought on a cash basis. Military Assistance Program (MAP) contracts for grant aid also are included in the awarding department's figures.

This contract report does not include obligations for "in-house" work performed at military-owned-and-operated establishments, such as Navy shipyards, Army arsenals, and Research, Development, Test, and Evaluation Federal agencies.

Obligations for subsistence, clothing, petroleum, and various maintenance and operating supplies are neither included in the Procurement, Construction, and Research, Development, Test, and Evaluation categories of fiscal reports nor are they shown separately in such reports.

Category definitions of the contract and fiscal reports are not comparable. For example, fiscal reports provide complete costs of end items, such as aircraft and missiles whereas contract reports for these categories exclude separately procured electronics and weapons.

Defense Logistics Agency - Defense Supply Agency (DSA) was established on January 1, 1962, to manage, procure, and distribute certain common supplies formerly the responsibility of the Army, Navy, and Air Force. The name changed on January 1, 1977, to Defense Logistics Agency.

Educational and Nonprofit Institutions - Any corporation, foundation, trust, or institution operating on a "not-for-profit" basis. Included are educational and scientific institutions, hospitals of a nonprofit

nature, and state, local, and other non-Federal government agencies. If the work of these institutions was not performed in the United States, its possessions, Puerto Rico, or the Trust Territories of the Pacific Islands, it is included in the category "For Work Outside the U.S."

Intragovernmental Purchase - An order written by a Military Department or Defense Agency purchasing office requesting a non-defense Federal agency to furnish supplies or services from its stocks, in-house manufacturing facilities, or contracts to be executed by the other Federal agency. Prior to fiscal year 1963 and after fiscal year 1967, the term "Intragovernmental" also included orders written against indefinite quantity contracts executed by the General Services Administration (GSA) schedules. Prior to 1963, also included orders written by one office of the Department of Defense against contracts awarded by another office of the Department of Defense. Effective in fiscal year 1964, contracts made for foreign governments under military assistance sales arrangements are included in intragovernmental. Beginning in fiscal year 1968, procurements from GSA Stores Depot and procurements under the GSA Consolidated Purchasing Program are excluded. Starting in fiscal year 1971, orders against contracts placed by the Small Business Administration were excluded from intragovernmental.

Location of Work - The place where the item is to be manufactured, assembled, or otherwise supplied by the prime contractor, the place where the service is to be performed, or the site of a construction project.

Military Departments - The Departments of the Army, Navy, Air Force, the Defense Logistics Agency (DLA), and the Other Defense Agencies (ODA).

Net Value - The net amount of debit and credit procurement actions recorded during the period.

Prime Contract Award - A legally binding instrument executed by a Military Department or an Agency of the Department of Defense to obtain supplies, services, or construction. Indefinite quantity, open-end or call contracts are binding obligations. Indefinite quantity petroleum contracts are excepted from this definition in that the estimated dollar amount of such contracts is included in this report, and the orders written against the contracts are excluded.

Procurement Action - An action involving the obligation or deobligation of funds which officially awards or changes a prime contract. This may be the award of a new prime contract, a debit or credit change to an existing prime contract, or an order written against an indefinite quantity, open-end, or term prime contract. Changes may be amendments, job orders, task orders, work orders, supplemental agreements, engineering changes, cancellations, or terminations.

CHART

Small Business Concerns - A firm as defined by the Small Business Administration in the Federal Register (Title 13, Chapter I, Part 121). The definition also is published in the Defense Acquisition Regulation (1-701). Generally, a small business concern is one that is independently owned and operated, is not dominant in its field of operations, and with its affiliates does not employ more than a specified number of employees (usually not more than 500, 750, or 1,000) depending on the type of product called for by the contract. For construction and some service industries, the criteria is a specified annual dollar volume of sales or receipts instead of employment.

Subcontract Payment - A cash payment made by one contractor to another for supplies, services, or construction required to fulfill a prime contract.

Subcontract Commitment - A legal instrument drawn up between contractors establishing the value of goods and services required to fulfill a prime contract.

Work Outside the United States - An award to U.S. or foreign business firms, educational or nonprofit institutions, or Government agencies with a place of performance outside of the United States, its possessions, Puerto Rico, or the Trust Territories of the Pacific Islands.

United States - The fifty (50) states and the District of Columbia, U.S. possessions, the Canal Zone, the Commonwealth of Puerto Rico, the Trust Territories, and other areas subject to the complete sovereignty of the United States.

Percentages - These may not add due to rounding.

NOTE: All DoD totals in this publication include the Civilian Health and Medical Program of the Uniformed Services (CHAMPUS), and Other Defense Agencies.
